

Using Cinegy Convert file import job folders, you can put all the files into a specially defined folder for automatic processing. The selected shared folder will be monitored by the watch folder service. Media from all the tracked files will be automatically imported to Cinegy Archive. Refer to the "Import Job Folders" chapter of the Cinegy Convert Manual for more detail.

Alternatively you can also use the Cinegy Watchdog plug-in. Please refer to the "Ingest via Watchdog" chapter of the Cinegy Ingest Manual for more detail.
